## Lexmark for government

Lexmark's comprehensive lineup of imaging products covers a full spectrum of budgets, business objectives, performance goals and workloads, from individual users to large workgroups. Lexmark is one vendor that truly has it all, offering government buyers a wide range of choices.

To meet our customers' varied needs, every Lexmark printer and MFP model has a unique combination of print speed, color modes, paper formats, processing capabilities, inputs/outputs and network connection types. But they all share a set of high-level goals

that drive Lexmark product design, a combination of attributes that form the DNA of every Lexmark product.

For example, ease of use is woven into every Lexmark product, including mobility support to help your staff get their work completed in the easiest and quickest way possible.

Lexmark's emphasis on performance means not just fast printing and scanning, but long maintenance intervals and ingenious ways to enhance efficiency. And our drive for quality is obvious in the clarity of our imaging technology and proven by million-page testing.

Designed-in flexibility gives every Lexmark product the ability to adapt to your needs as your business and its objectives evolve, while our manageability features let you monitor and control just a handful of devices or a fleet of thousands.

And across the line is Lexmark's long-standing commitment to security, which creates not just a safer but a more productive environment for users of Lexmark products.
